Wednesday 3rd of July- Board of Trustees meeting.

School finishes on Friday 5th of July 2024 at 3.00pm.

# Kākā

This week we completed our first round of tech, and our students are very proud of their achievements and how much they have learned in only 7 weeks! We start our next rotation straight away next week, so keep an eye out for new skills and projects coming home!

This week also saw our last session with Mountains to Sea Wellington, who have left us with the challenge to take some action to help restore the Albemarle Stream. We are now focusing on student led Science Fair projects until the end of the term.

In Genius Hour, our students have been busy coding, learning hip-hop dance, designing with Tinkercad, completing Minecraft build challenges, testing their engineering skills with EPRo8 and teaching maths and PE games to the junior students.

# Kōtare/ Tīeke (all team)

Kia ora tatou,

This week we celebrated our last swimming day at the Karori pools.

Kōtare students have also been learning Ki-o-rahi with Kelly Sports over the course of the term. Tīeke students have been learning ball skills and games including passing a variety of balls. Thank you to Ryan for coaching our students and staff over the course of term 2. .

As part of our Pūrakau, we have been thinking about the children of Rangi and Papa. We have learned the story according to Te AtiAwa. Our students have displayed their learning of the story through art.

# Provisional Events for term 3

Some early dates to be aware of:

22nd of July- Term 3 starts

6th of August- Home and School meeting  
(provisional)

7th of August- Board of Trustees meeting.

12th of August- Maths week begins

13th of June- Western Zones Netball  
tournament.

14th of August- Books Alive: National Library  
Service.

On behalf of the teachers of Tīeke, Kōtare and Kākā, we would like to thank you for another term of amazing support. Those of you who pop in to see your child's teacher, those who have accompanied trips, those who came along and supported a sports event, those who come along to our community meetings and those who ask their child, "how was your day today?" These and many more actions support the development of a person's education.

Your team in Tīeke, Kōtare and Kākā.
